### Market review:

Kuwait Stock Exchange ended the month of May 2008 in a positive performance. The KSE price index recorded (+ 2.2%) growth and closing at 15,014.5 points. As for the KSE weighted index, It decreased (-1.46%) to reach (+ 759.61) points during this month.

Broad-based strength pushed higher 5 out of 8 KSE sectors. The Real Estate Index led the sector by gaining (+ 7.57%) The Services index recorded (+ 1.00%) followed by the Insurance index which registered (+ 0.94%). And the Investment sector that recorded (+ 0.50%) and finally the Non-kuwaiti index that recorded (0.47%). All the rest 3 sectors recorded a negative performance.

The daily average Volume and daily average Value of shares traded on the exchange was 409.61 million shares and KD 185.21 million respectively. Total Market Capitalization stood at KD 61,685 million by month end.

The Price Index achieved a high record during the month of April reaching 15,103.2 points on the 7th of May.

The Price Index continued to be higher than the weighted Index during this month, due to the modest activity on leading shares of the market and increased activity on the small and medium market cap shares.

The trading concentration of this month was on the Real Estate shares that achieved the highest activity.

### Fund review:

During May, the fund accomplished a negative performance where the NAV Increased by (+ 5.47%) YTD as compared to the KSE weighted index which recorded (+6.24%). In addition, the Fund outperformed its benchmark the KIC index that recorded a gain of (+ 0.77%) for the YTD performance.

Significantly, the positive growth is mainly attributed to the concentration of the fund in the real estate sector and the services sector, which improved strong operational profits.

The fund team continues to believe that the market would reward the blue chip companies, with substantial operational earnings, and that would in turn reflect on the Fund's overall portfolio performance.
